

GUIDELINES FOR RESEARCH PROPOSALS

**Resúmenes en inglés basados en apuntes de investigación del Kinesiology Department - HPER
(Indiana University, Bloomington · 1994-1996)**

FORMS OF RESEARCH COMMUNICATION

- Research proposal
- Thesis or dissertation
- Journal article
- Evaluation and technical report
- Paper presentations

QUANTITATIVE RESEARCH PROPOSALS

I. Introduction

- a. General statement of the problem
- b. Review of the literature
- c. Specific research question and/or hypotheses
- d. Significance of the proposed study

II. Design and Methodology

- a. Subjects
- b. Instrumentation
- c. Procedures
- d. Data Analysis and Presentation
- e. Limitations of the Design

III. References

IV. Appendices

QUALITATIVE RESEARCH PROPOSALS

Ethnographic

I. Introduction

- a. General statement of the problem
- b. Preliminary literature review
- c. Foreshadowed Problems
- d. Significance of the proposed study

II. Design and Methodology

- a. Site or social network selection
- b. Research role
- c. Purpose sampling strategies

III. References or Bibliography

IV. Appendices

Historical and Legal

I. Introduction

- a. General statement of the problem
- b. Preliminary literature review
- c. Specific research historical questions or legal issues
- d. Significance of the proposed study

II. Design and Methodology

- a. Case study design
- b. Sources: search, selection and criticism
- c. Inductive data analysis
- d. Limitations of design

III. References or Bibliography

IV. Appendices
